# CHEMICAL RESISTANT GLOVES SELECTION GUIDE

It is important that workers protect their hands and forearms while using chemicals. Consider the type of liquid being handled and the grip that is necessary for working with chemicals and solvents. Always select a glove that meets the recommended industry standard.

## MATERIAL

### NEOPRENE

- Moderate resistance to oils & fuels
- Excellent resistance to environmental conditions

### NITRILE

- Resists abrasions, snags & punctures
- Excellent resistance to many oils, fuels, acids and solvents
- Superior dexterity

### PVC

- Resists abrasions & cuts
- Withstands most oils, acids, greases and solvents

### RUBBER LATEX

- High tensile strength
- Superior elasticity & comfort

## CUFFS

### BEADED

- Bottom edge of cuff is rolled for secure fit

### GAUNTLET

- Superior forearm protection

### KNIT WRIST

- Prevents glove from slipping
- Comfortable and secure

### SAFETY

- Good wrist protection with moderate forearm coverage

### STRAIGHT

- Superior forearm and splash protection

# LENS SELECTION GUIDE

Stylish eyewear to improve your visual acuity while protecting your eyes from injury.  
Choose a lens best suited for your work environment.

## LENS TYPE

### CLEAR LENS

- General indoor application

### ANTI-FOG LENS

- Ideal for high humidity applications

### ORANGE LENS

- Recommended in low light conditions
- Blocks much of the blue light that can cause haze and reduce sharpness

### AMBER LENS

- Ideal in low light conditions, when sharpness, acuity and contrast are required
- Absorbs blue and ultraviolet light

### GREY SMOKE LENS

- Ideal for outdoor use
- Reduces glare and bright light

### I/O MIRROR LENS

- Helps user adapt to severe changes in light while moving in and out of a facility
- Reduces fatigue and glare from bright light

### BLUE LENS

- Ideal for indoor applications, where there is high levels of yellow or sodium vapor lighting
- Reduces glare and bright light

### POLARIZED LENS

- Provides the user clearer vision and true perception of colours in outdoor applications
- Reduces glare directly from the sun, from water or snow

# SPILL KIT SELECTION GUIDE

## BE PREPARED FOR THE UNEXPECTED

Whether you're working on a project outdoors or doing maintenance work inside, being properly equipped for oil, grease or hazardous liquid spills is essential.

Having a spill kit nearby greatly reduces the effects of a spill by controlling the spread of the liquid and stopping it at the source. Our kits come ready with all the tools you need to handle the situation.

Our spill kits are offered in three formats with an assortment of sorbents, safety gear and disposable bags with the exception of our specialty kits which are tailored for specific situations.

**Oil Only (White)** These sorbents are excellent for absorbing oil-based spills as they have a water repellent (hydrophobic) property.

**Universal (Grey)** Perfect for typical indoor spills where both oil and water based liquids need to be cleaned up.

**Hazmat (Yellow or Green)** Similar to universal pads, they absorb both water and oil based liquids. The colour acts as an indicator that the liquids spilled are hazardous and should only be cleaned up with the proper protective equipment and knowledge of how to address the liquid substance.

In order to best suit your needs, our kits are offered in an array of sizes ranging from convenient 5 gallon bags all the way to heavy duty 97 gallon containers and everything in between.

**Stationary:** Best placed in easily accessible locations near potential spill sites. These kits come in sizes ranging from 10 to 97 gallons.

**Portable:** Portable kits come in convenient sizes of 5, 10 and 17 gallons making them a great choice to keep in your vehicle or in areas where there is only a small amount of liquid nearby.

**Mobile:** These spill kits on wheels offer the absorption capacity to deal with larger spills as well as the mobility required to bring the kit to where it is needed most. Mobile spill kits are offered in formats starting at 30 gallons up to 97 gallons.

## COLLAPSIBLE ROLL-UP SPILL BERMS

- A useful catch-all for small leaks and spills
- This flexible collapsible spill containment berm can fold and roll into a compact size when not in use
- When folded, these spill berms are no bigger than the standard closed umbrella
- However, when needed, the spill berm can easily unroll and be deployed as a drip pan under pipe fittings, vehicle engines, and small equipment
- As a portable spill berm, it also provides peace of mind when filling items like bottles with oils or other chemicals, catching the inevitable overflow or spills and keeping the area clean
- Use this portable spill containment as a storage pad for empty liquid containers, like oil and transmission fluid cans or greasy tools
- Constructed of durable fabric that is resistant to chemicals, fuels, and oils
- When folded it takes up much less space than traditional mini berms or duck ponds
- Fits behind truck seat or tucks away for easy and convenient access
- Easily cleaned and maintained
- Material: Vinyl
- Fabric Weight: 18 oz.
- Capacity: 56 L
- Thickness: 20.3 mils (0.5 mm)
- Puncture Strength: 236 lbs. (1000 N)
- Ball Burst: 629 lbs. (2800 N)
- Hydrostatic Resistance: 760 PSI (5200 kPa)
- Abrasion Resistance: 11000 Cycles

# SPILL BERMS & SPILL PALLETS

## HINGE BRACKET COLLAPSIBLE BERMS

- Quickest set up time in the industry
- The Hinge Bracket berm is the ideal solution for full or partial containment that requires a simple, fast and convenient solution
- This berm can be folded up and transported from job site to job site
- It's sleek, compact and easy to deploy and it is re-usable
- This solution outperforms its foam wall alternatives as it has a much smaller footprint and is so much easier for operators to deploy and re-use, over and over
- Built-in hinge brackets easily stays in upright position
- Brackets can be removed/replaced
- Durable and lightweight
- Compact berm design for efficient storage and transport

## IBX WALL POP-UP BERM

- The essence of convenience because they have compressible sidewalls and are engineered as a single unit
- These berms are great for rugged environments because the brackets are fully encased in the heavy-duty berm material, extending their life cycle, reducing loss due to misplacement and discouraging theft
- The sidewalls are quickly folded up and down, creating a containment system for leaks and spills of oil, fuel, chemicals and other environmentally harmful chemicals
- Pop-up spill containment berms are ideal for frac tanks, parking or loading/unloading tanker trucks, placing under generators and industrial equipment, storing oil drums and chemical containers, washing down vehicles and anywhere else a catch-all system is needed
- Made from UV, chemical and acid resistant X-Guard™ fabric
- Brackets are integrated into berm
- Brackets are fully encased in material for longevity
- Exceptional durability, especially after multiple uses
- Easy to set up, maintain and dismantle
- Single piece construction

# WARRANTY AND RETURN POLICY

The warranty and return policy stated and described below pertain to all products carrying a Zenith Safety Products® logo located directly on the product or packaging. Such warranty supersedes any and all manufacturers' warranties, written or implied. Zenith Safety Products® sole liability is limited to repair or replacement of any products proven to be defective in material and/or workmanship for one (1) year from the date of purchase, and for which a warranty claim is made, during the applicable warranty period, and no claims for damages of any type will be allowed. All products are sold on this specific interpretation. Defective warranted products will be repaired or replaced, at the discretion of Zenith Safety Products®, at no cost with a new or reconditioned product. Warranties only apply when the product is used for the purpose for which it was originally designed, in normal operating and other conditions. This warranty does not apply to products which have been abused, misused, modified or if the product is worn out from normal use or has been repaired by someone other than Zenith Safety Products® or an approved repair center. Discontinued warranted products will be replaced with products that

are similar and available, or we will issue an appropriate credit. The specific warranty coverage for each product is as set out below. Zenith Safety Products® sells only on a wholesale basis and accordingly, warranties only apply to purchasers for resale or for use in their business.

### 10-Year Limited Warranty (Normal wear & tear expected)
